

Instructions for wear checks of play equipment

Playground:

Date of assembly:

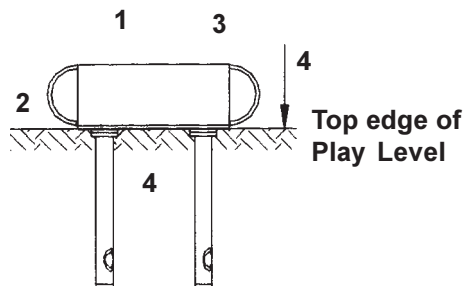

Checks depend on kind of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on:

- location
- kind of use
- frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds"

Sound Cushions
Order no. 9.02410

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

1. 2. 3.

Rubber

1 Check for wear or damage due to vandalism

2 Check for firm mounting, tighten the bolts if required

Sound

3 Check if sound is produced by jumping onto the Sound Cushion - check the air spring and pipe inside the Sound Cushion for dirt and clean if necessary. The equipment must then be disassembled

Structural stability

4 Dig out the foundations once a year and check for structural stability. Check that the area around the Sound Cushion is still level, no hollows caused by playing with the equipment. The Sound Cushion must not necessarily be set in concrete.

Special notes (e. g. for repairs):
Special notes (e. g. for repairs):
Special notes (e. g. for repairs):

Repair not carried out, it is still possible to play on the equipment

Repair not carried out, equipment is taken out of action

All work carried out, everthing is in order

Maintenance carried out by
