

Play value

The Sand Snake is not just an enclosure for a sand pit, but also serves as a surface for playing and "baking", or as an alternative bench which can be balanced upon. Shaped like a big animal, the Sand Snake is an artistic design element which, coupled with its versatility, makes it a very special decorative object for any playground or adventure area.

Fundamental characteristics

- High-quality design
- Natural wooden surface which appeals to the senses
- Due to modular system, the direction of the snake can be changed
- Incentive for playing: big head with ears, smooth play and seating surface
- Movement: balancing, climbing, exploring by touch

Scale 1:100

Safety check according to DIN EN 1176

Components

- 1 Head
- 1 Shuttering for the head foundation
- 7 Body elements
- 1 Tail
- 3 Foundation irons

Installation information

Surfacing requirements corresponding to a fall height of ≤ 1.00 m (please refer to price list for more detailed information)
Sand is required for correct functioning.

Foundations
1 item 100 x 50 x 60 cm
Excavation depth 60 cm
1 item 40 x 40 x 20 cm
Excavation depth 40 cm

Attention:
Exact measurements may vary;
for all installation dimensions refer
to current assembly instructions.
Technical changes reserved.
Equipment also available made of
laminated beams for hot regions
(Order No. 5.00005).

5.00001

Technical information

Equipment made of non-impregnated mountain larch, cross section 28 / 28 cm

Ground anchor

All parts used for anchoring to the ground are made of hot-dip galvanised steel or stainless steel

Relief cut

Targeted relief cut as an effective measure against cracks caused by drying. The cut defines the position of the stress equalization in the trunk and minimises natural cracking

For more detailed explanation of the quality characteristics see price list.

Dimensions

(small deviations possible)

Height	0.30 m
Height of head	0.95 m
Length	3.80 m
Width	3.90 m
Weight	650 kg
