

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground

Date of installation

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

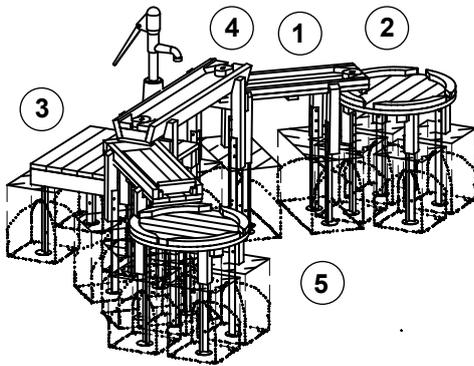

Intervals for maintenance work and checks generally depend on

- location
- kind of use
- frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Single elements for water play with steel feet
Order No. 5.10103 - 5.19003

Pump see relevant maintenance instructions

Wooden parts

1. Check for rot (frequent cleaning prevents excessive rotting) and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. Check that all bolts and screws are tight and retighten if necessary.
3. Correct warping and/or swelling by grinding with sand paper.

Functional parts

4. Check all functional parts for smooth motion. Renew worn parts if necessary.

Structural stability

5. In order to check the steel feet for corrosion, uncover the foundation once a year.

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:
