## Play value

Turning the disc sets two differently coloured sands in motion and these then trickle through fine funnel openings. As a rule, like goes to like, like things join together: large to large, heavy to heavy. Mountains and valleys, shot through by regular two-coloured layers form on one side, while the other side shows increasing waves of erosion. A stimulating experience as a result of the formation of continually new patterns. Just a gentle turn of the disc is enough to change the picture into ever new and flowing forms, each unique and fleeting. Whole landscapes and aesthetic patterns appear in the sand. Turning the disc too fast results in chaos. However, if the disc is left to trickle while stationary, new structures form.

## Recommended for

- School children
- Young people
- Adults
- Older people
- Public play areas without supervision, such as playgrounds, parks or similar

Turning Circle special Version

Order No. 10.13500 for wall attachment

10.13100

## Order No. 10.13100 <br> Turning Circle

$\mathbb{H}$

Scale 1:50

## Components

1 Turning circle
1 Support frame with steel feet and installation plate

## Trademark

302005500000 Germany 40-0682207 South Korea
Explanation board on request

## Installation information

Recommended space
$3.00 \times 2.00 \mathrm{~m}$

Foundations
2 items $40 \times 40 \times 50 \mathrm{~cm}$
Excavation depth 70 cm

## Attention!

Exact measurements may vary, for all installation dimensions refer to current installation instructions.
Technical changes reserved.
Turning Circle also available for wall attachment (Order No. 10.13500) or with frame made of stainless steel (Order No. 10.13105).

## Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

## Ground anchor

All parts used for anchoring to the ground are made of hot-dip galvanised steel or stainless steel

## Roller bearings

High-quality roller bearings made of chrome steel or stainless steel for rotating elements, easy to maintain and exchange, sealed

For more detailed explanation of the quality characteristics see price list.

Impact- and weather-resistant acrylic glass held in four corrosion-proof bearings

Large-diameter board with thick, transparent and completely non-smear UV-proof outer disc

Condensation in disc interior precluded

## Technical information

Frame made of oak
