

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground

Date of installation

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- location
- kind of use
- frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Single elements for water play made of stainless steel
Order No. 5.13000 to 5.14800

With regard to the pump, please refer to separate maintenance notes.

Operation

1. Check all operational parts.

Metal parts

2. File down any sharp edges that may arise from wear and tear.

Structural stability

3. Check the stability of the foundation by rocking the equipment and check the stand posts for corrosion once a year.

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:

..... Date
